### Master Degree Research Fellowships: Call Applications

The Universities of: Oslo (UiO, Norway), Malawi (UNIMA), Dar es Salaam (UDSM, Tanzania) and Mzuzu (MZUNI, Malawi) are implementing a project titled “**Climate Change and Ecosystems Management in Malawi and Tanzania**”. This is a 6-year project that is being implemented with financial support from the Royal Kingdom of Norway under NORAD’s NORHED II Programme. Research activities under this project are focusing on the ecosystem within the Lake Malawi Basin. The project has budgeted funds to support MSc level studies in areas related to Water and Environment in the School of Natural and Applied Sciences. The fellowship covers tuition and research related expenses.

Applications are therefore invited from highly motivated, output oriented and registered students at the University of Malawi with a BSc degree in areas such as Biology, Chemistry, hydrology, hydrogeology, climate and environmental sciences, with skills in handling large data sets and models. Knowledge of developing models will be an added advantage.

Interested candidates should send their applications including detailed curriculum vitae, copies of certificates plus names and addresses of three traceable referees not later than 23 July 2023 to:- [vacancies@unima.ac.mw](mailto:vacancies@unima.ac.mw) or to:-

Registrar,  
University of Malawi,  
P.O. Box 280, ZOMBA.

Informal inquiries can be made to [deanscience@unima.ac.mw](mailto:deanscience@unima.ac.mw)

Only shortlisted candidates will be acknowledged and invited for oral interviews. ***Female applicants and those with disabilities are strongly encouraged to apply.***
